

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JUL 12 1990
Returned to applicant for correction AUG 24 1990
Corrected application filed AUG 28 1990
Map filed AUG 28 1990 under 54890

The applicant Mammoth Mining and Exploration Inc.
2500 East Bay Drive, of North Bend,
Street and No. or P.O. Box No. City or Town
Oregon 97459, hereby make^s application for permission to appropriate the public
State and Zip Code No.
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a
copartnership or association, give names of members.) incorporated in Oregon 29 December 1989

1. The source of the proposed appropriation is underground
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is 0.5 c.f.s. second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet _____
3. The water to be used for mining, milling and domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
(a) Irrigation, state number of acres to be irrigated _____
(b) Stockwater, state number and kinds of animals to be watered _____
(c) Other use (describe fully under "No. 12. Remarks") mining, milling and domestic
(d) Power:
(1) Horsepower developed _____
(2) Point of return of water to stream _____
5. The water is to be diverted from its source at the following point within the NW¼ SW¼ of unsurveyed
Describe as being within a 40-acre subdivision of public
Section 28, T.37N., R.31E., M.D.M. or at a point from which the N¼ corner of
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
Section 6, T.36N., R.31E., M.D.M. bears S 41° 30' W 8860'
6. Place of use all of unsurveyed Sections 28 and 29 and the N½ of unsurveyed Sections
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
32 and 33, all in T.37N., R.31E., M.D.M.
7. Use will begin about January-1 and end about December 31, of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) drilled and cased well equipped with pump
State manner in which water is to be diverted, i.e. diversion structure, ditches and
and motor and pipeline
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works \$25,000

10. Estimated time required to construct works..... 1 year
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 5 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

estimated consumptive use of 32 million gallons annually to be used in
the mining and milling process

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 54890 and 55055 shall not exceed 5.28 million gallons annually.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this (CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second, but not to exceed 5.28 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 14, 1992

Proof of completion of work shall be filed on or before September 14, 1992

Application of water to beneficial use shall be made on or before August 14, 1995

Proof of the application of water to beneficial use shall be filed on or before September 14, 1995

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed _____ IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.

Proof of beneficial use filed _____ State Engineer of Nevada, have herunto set my hand and the seal of my

office, this 14th day of August,

CANCELLED NOV 23 1992 BECAUSE OF FAILURE OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT

[Signature] STATE ENGINEER

(PERMIT TERMS CONTINUED)

permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from each well and the amount of water used for mining and milling purposes.
